

# MOODLE

Giving individual students extra time RQ DQ DVVHVVPHQW (i.e. Accessibility accommodations)

# Step 1

Click on the test on your Moodle page. From Settings drop-down menu choose User overrides.

## Step 2 Click on Add user override.

| Overrides                  | × +  |                          | ٥       | ×  |

|                            |  |                          |         |    |
|                            |  |                          |         |    |
|                            |  |                          |         |    |
|                            |  |                          |         |    |

### Step 3

In the Override user drop-down, select the student for whom you would like to add the extra time. Save.

#### Step 4

Adjust the Close Quiz time and/or time limit as required and ensure the Enable boxes have been checked. Save. You will be prompted to enter the new time for each of these students depending on their accommodations.

## Step 5

If you have more than one student, who requires more time on the test, click on Save and enter another override.

#### Step 6

Double check your information (see below). Here you have 3 students who have 30 minutes to complete the test, while everyone else in this course has 15 minutes.
