The screenshot shows a presentation slide with a diagram and text. The diagram illustrates a network architecture with a central 'server' box, a 'client' box, and a 'peer-to-peer' box. Arrows indicate data flow between these components. The text on the slide includes 'of peers and 10%' and 'instructor'.

Grades are assigned on a complete/incomplete basis so there is no partial credit. All requirements for each grade tier must be complete in order to receive that grade. All grade tiers require attendance and participation in class discussion and group work as well as group or individual assignments. Requirements are as follows:

- 1. Two individual assignments (one 500-750 words, one 750-1000 words)
- 2. A group project with two deliverables for a real client.

Assignment questions: One or more projects need to be prepared to be presented to a real client for a real client.

For a B:

- 1. Two individual assignments (one 500-750 words, one 750-1000 words)

client. 3. A group project with two deliverables for a real client.

client.

For an A:

- 1. Two individual assignments (one 500-750 words, one 750-1000 words)

2. Two assignments (one 500-750 words, one 750-1000 words)

All grading will use a +, ✓, - system. Or I might use 3, 2, 1, if it is easier on electronic submissions. In either case, a +/3 means that the assignment exceeds expectations for your chosen grade. A ✓/2 means that the assignment meets expectations for your chosen grade. A -/1 means that the assignment does not meet expectations for your chosen grade.
